

A FAMILY CONSTELLATION WORKSHOP

Healing the Heart & Soul

facilitated by John Payne

Internationally acclaimed author and metaphysical teacher from South Africa & facilitator of over 250 workshops on 5 continents

Do you.....

- *struggle with money in spite of all your best efforts?*
- *experience family relationships or marriage as difficult or traumatic?*
- *desire to be more satisfied & successful professionally but can't reach your goal?*
- *seek clarity about what is holding you back from living a fulfilled life?*

Did you know the answers to these questions might be locked away and hidden in your family and ancestral patterns and dynamics?

Family constellation work can change these patterns, transform your life, gently and compassionately untangling these trans-generational family bonds. This work reveals how family members connect in love and faithfulness. Each of us has an unconscious knowledge of the hardships and conflicts in our family, including past generations. Out of loyalty to our loved ones who bear a difficult fate, we unknowingly take on the consequences for that fate, integrate them into our lives and sacrifice our own health, fulfillment and prosperity.

Family Constellation reveals amazing insights as to our unconscious conflicts. It gives explanations for unhappy relationships, careers, challenges, and difficult destinies, feelings of guilt and shame and illnesses. Individuals are shown the true origin of their stated patterns and problems, and new opportunities for disentanglement, resolution and a return to balance, personal health and well-being.
